Nobody dreams of having multiple sclerosis

Some dreams are universal: hitting a ball over the Green Monster; winning the World Series with a grand slam in the bottom of the ninth inning. Finding out you have MS is not one of them.

Multiple sclerosis is a devastating disease of the central nervous system where the body's immune system attacks the insulation surrounding the nerves. It strikes adults in the prime of life - and changes lives forever.

To help make the dream of ending MS come true, call 1-800-FIGHT MS or visit us online at nationalmssociety.org.
